

SNEP Network Technical Service Area

Engineering, hydraulic, and other technical analyses including fluvial geomorphological assessments and hydraulic stream channel modeling

Watershed hydrologic modeling suitable for watershed-wide accounting of runoff volume and pollutant load reductions (e.g., Qtrfoot)

Field assessments to include geomorphological, biological, soil, topographic, property or other land measurements

Development of Sampling and Analysis Plans and Quality Assurance Quality Project Plans (QAPP) for environmental monitoring

Site design/landscape architectural, environmental sensitive design (ESD), planning and design of low (GI) stormwater best management practices

Forestry management services including conservation, vegetation and planning for the management of low hazards, restoration of ecosystems, reduction of fire, and maintenance of forest health

Expertise in BMP site selection to maximize practice effectiveness in capturing or mitigating pollutants or concerns; i.e., familiarity with approaches that consider broader landscape, watershed, and appropriate features in the process of selecting restoration of natural hydrologic and physical processes that address flooding problems, reduced stream base flow and restore/support critical habitat and ecosystem functions including invasive species removal strategies

Mapping and analysis using GIS data for assessing catchment areas and/or drainage basins; pollutant loading, tracking and accounting (with and without stormwater treatment); and creation of GIS data layers

Drafting of local ordinance/bylaws updates to incorporate LID, and innovative use of BMPs for stormwater and sustainable water management. Provide related training and technical assistance to support adoption of ordinance/bylaw updates

Stormwater retrofit guidance with wide range of dispersed GI to larger scale neighborhood controls (infiltration practices, regional GI practices such as bioretention)

Legal services, title search on properties proposed for construction of best management practices and/or implementation of nature based approaches

Services to communities to access tips and tools for writing successful grant proposals that may include: overview of available funding sources, grant writing skills training, and grant administration techniques

Diversity, Equity, and Inclusion training to address and enhance organizational leadership skills necessary to preference for organizations that have local expertise in equity issues

Public and workgroup meeting facilitation services with experience in, but not limited to, engaging diverse audiences and cultures, adaptive engagement strategies, and virtual engagement strategies

Translation services to facilitate communication with non-English speaking populations who may be stakeholders or otherwise affected by a project supported by the SNEP Network

Graphic Design and marketing services to assist with project related materials, design of outreach and plans and timelines, and public relations

Curriculum development, training development, and design, and Bylaw Curriculum Development services.

Other Service Areas

Company	Local Office Location																				
Anjali Joshi Design	Pawtucket, RI; Brewster, MA							X		X				X							Sustainable Sites
ATON LLC	Warren, RI							X													
BSC Group, Inc	Boston, MA		X					X		X	X			X							LSP and soil/gourndwater contaminatin assessments, remediation planning
Carter Consulting	Barrington, RI													X							
Consensus Building Institute	Cambridge, MA																				
Crowley Cottrell LLC	Boston, MA							X													
Desautel Law	Newport, RI																				Property/land use, energy and utility, and/or municipal law.
Dodson & Flinker	Florence, MA							X		X	X			X							facilitated planning, education materials and three-dimensional visuals
EA Engineering	Warwick, RI	X		X	X					X	X			X							Coastal resiliency, SLR planning, salt marsh restoration, dam removal planning and engineering
ESS Group	Waltham, MA; East Providence, RI	X	X	X	X			X		X				X							
Fuss & O'Neill	Providence, RI	X	X	X				X		X	X			X							
GeoSyntec Consultants	Portsmouth, NH		X					X		X	X										
Grow Smart RI	Providence, RI													X							
GZA GeoEnvironmental	Providence, RI; Norwood, MA	X	X	X				X		X	X			X							
Horsley Witten Group	Sandwich, MA; Providence, RI	X	X	X	X			X		X	X			X	X						Climate adaptation & mitigation, vulnerability assessment & planning
Milone & Macbroom	Cheshire, CT	X	X	X				X		X	X			X							
Nitsch Engineering	Boston, MA		X					X		X	X			X							
Normandeau Associates, Inc.	Bedford, NH	X	X	X	X			X		X	X			X							Nonpoint source pollution assessment and management planning, Stormwater management/pollution prevention planning and training for NPDES discharges
Paradigm	San Diego, CA		X					X		X	X										Web-based systems and tools to support agencies with infrastructure inventories, asset management, and quantification of stormwater and pollutant capture effectiveness of BMP
Pare Corporation	Fozboro, MA; Lincoln, RI	X	X	X				X		X	X			X							
VHB	Watertown, MA; Providence, RI	X	X	X	X			X		X	X			X	X						Roadway Design
Walberg Consulting	Richmond, VA									X	X			X	X						
Weston & Sampson Engineers	Reading, MA	X	X	X	X			X		X	X			X	X						Sustainability and Resilient Design
Wood Environment & Infrastructure Solutions	Providence, RI	X	X	X	X			X		X	X										

Additional services added in Phase II
