SNEP Network's Impact on Rhode Island (federal fiscal years 2020 – 2024)

Community	Project Description	SNEP Partners Involved
Multi-Year SNEP Network Pilot Project		
Middletown/ Aquidneck Land Trust	Maidford River Restoration Project	Elizabeth Scott Consulting, Save the Bay; non-SNEP-N partners: ERICD, consultant services: FANDO
2020/2021 Community Assistance Projects		
Portsmouth	Development of town-wide climate resilience planning and financing strategy	Throwe Environmental, Elizabeth Scott Consulting
Charlestown	Assistance in drafting a conservation development ordinance for new subdivisions that incorporate stormwater management and LID standards	University of RI NEMO; consultant services: GrowSmart RI
Audubon Society of RI & Providence Stormwater Innovation Center	Engineering Services to design non-proprietary tree filters at RWP	Elizabeth Scott Consulting, Audubon Society of RI, The Nature Conservancy (RI office); consultant services: HWG
Woonasquatucket River Watershed Council	Assistance with design and engineering for parking lot retrofit at Door of Refuge Church; training of WRWC's River Rangers to install retrofits and in documenting as-builts	Elizabeth Scott Consulting, Save the Bay; consultant services: FANDO
Warren	Development of long-term flood mitigation plan for flood prone residential area of town	UNH Stormwater Center, Save the Bay, Elizabeth Scott Consulting; consultant services: FANDO
Bristol	Development of stormwater management and landscape improvement master plan for Bristol Town Common	URI NEMO, Audubon Society of Rhode Island, The Nature Conservancy (RI office), Elizabeth Scott; consultant services: FANDO
2021/2022 Community Assistance Projects		
Newport	Develop climate resilience strategy working w stakeholder group to prioritize high priority projects & provide recommendations on sustainable funding and financing	Throwe Environmental, Save the Bay, Syracuse University EFC, North Carolina EFC
Providence/ Seekonk River Alliance	Provide stormwater planning training series to develop conceptual design for stormwater retrofit for York Pond watershed	Elizabeth Scott Consulting, Audubon Society of RI, Save the Bay, UNH Stormwater Center; non-SNEP-N partner: Narragansett Bay Estuarine Research Reserve
Providence	Assistance with PVD Tree plan	The Nature Conservancy of RI

South Kingstown	(1) Provide stormwater planning training series to develop conceptual design for stormwater retrofit for Saugatucket River watershed; (2) develop landscape architectural renderings for restoration of riparian buffer at Peace Village Green	Elizabeth Scott Consulting, Audubon Society of RI, Save the Bay, UNH Stormwater Center; non SNEP-N partner: Narragansett Bay Estuarine Research Reserve; consultant services: ATON
Warren/Warren Land Trust	Provide stormwater planning training series to develop conceptual design for stormwater retrofit for Palmer River watershed at Warren Industrial Park	Elizabeth Scott Consulting, Audubon Society of RI, Save the Bay, UNH Stormwater Center; non SNEP-N partner: Narragansett Bay Estuarine Research Reserve
Westerly/ Southern RI Conservation District	(1) Provide stormwater planning training to develop conceptual design for stormwater retrofit for Pawcatuck River watershed at private property on Main Street; (2) assistance with LID checklist to identify strengths/weaknesses in municipal specific ordinances and performance standards for LID	Elizabeth Scott Consulting, Audubon Society of RI, Save the Bay, UNH Stormwater Center; non-SNEP-N partner: Narragansett Bay Estuarine Research Reserve
2022/2023 Community Assistance Projects		
North Kingstown	Provide stormwater planning training to develop conceptual design for stormwater retrofit at Town Beach located on lower Narragansett Bay	Elizabeth Scott Consulting, Audubon Society of RI, Save the Bay, UNH Stormwater Center; non-SNEP-N partner: Narragansett Bay Estuarine Research Reserve
Middletown	(1) Development of town-wide climate resilience planning and financing strategy (2) Support Climate Leadership Exchange for Aquidneck Island	Throwe Environment, Elizabeth Scott Consulting; non SNEP-N partner: Rhode Island Infrastructure Bank
Burrillville Land Trust	(1) Prepare presentation on land use, watershed protection to Burrillville Planning Board; (2) develop regional training on select topics for Blackstone Watershed communities	Blackstone Watershed Collaborative; Syracuse University EFC
South Kingstown	(1) Develop buffer restoration planting plan for Indian Run Brook in Peacedale Village Green; (2) Develop designs, engineering, & cost estimates for stormwater retrofits for parking lot at Neighborhood Guild	Elizabeth Scott Consulting, Save the Bay; consultant services: HWG
2023/2024 Community Assistance Projects		
Providence	Assist with identifying sustainable financing for city-owned sewer and	Elizabeth Scott Consulting, NE EFC, EFC UNC, Narragansett Bay Estuarine Research Reserve

	stormwater collection system; support two-part public engagement process	
Hopkinton	Provide stormwater planning training to develop conceptual design for stormwater retrofit at Town Beach located on lower Narragansett Bay	Elizabeth Scott Consulting, Audubon Society of RI, Save the Bay, UNH Stormwater Center, Narragansett Bay Estuarine Research Reserve
Coventry/ Upper Dam Pond Conservation Association	Provide stormwater planning training to develop conceptual design for stormwater retrofit at Town Beach located on lower Narragansett Bay	Elizabeth Scott Consulting, Audubon Society of RI, Save the Bay, UNH Stormwater Center, Narragansett Bay Estuarine Research Reserve
Low Impact Development (LID) Checklist Technical Assistance		
Charlestown Exeter Hopkinton North Kingstown Richmond South Kingstown Westerly	Assist municipalities in reviewing existing local development rules against model development principles designed to reduce runoff and other impacts from new construction and redevelopment, and in doing so to help municipalities to protect and restore the quality of local waters while becoming a greener and more attractive and livable community.	URI-NEMO
Tiverton	Assist in development of a conservation development ordinance.	URI-NEMO
